\* Required

### **DAP Certified Analyst Exam**

Welcome to the DAP Certification Exam! In order to pass the exam, you must score an 80% (40 of 50 questions correct) or higher. For guidance, see the DAP Certification Study Guide, the DigitalGov Analytics Youtube playlist, the Digital Analytics Program Github repo, and our pages on Digital.gov.

This exam is not meant to be easy. It's intended to demonstrate mastery of the DAP Google Analytics account, and the questions were created with mastery in mind. With study and training, you can be a DAP Certified Analyst! Best of luck!

DO NOT TAKE THIS EXAM IF YOU ARE NOT A FEDERAL EMPLOYEE OR AUTHORIZED CONTRACTOR WITH DAP ACCESS.

Note: We recommend you zoom your browser to 150% to better view the images in the exam.

1.	Email address *						
2.	First and last name *						
3.	3. Agency & subagency (if applicable) *						
Tei	rms and Concepts						
4.	When does a session time out or expire? * Mark only one oval.						
	A session never times out						
	After 60 minutes of inactivity						
	After 2 years						
	After 30 minutes of inactivity						
5.	Which of the following is NOT a dimension? * Mark only one oval.						
	Numeric month						
	Total events						
	Day of the week						
	Landing Page						

6. What is bounce rate? *  Mark only one oval.
A single hit session
When users enter a site
Percentage of single hit sessions
A return visitor
7. If you were to report on a single person who accessed your site one time on each of her desktop, mobile phone, and tablet devices, how many users would your report return? * Mark only one oval.
$\bigcap$ 1
2
$\bigcirc$ 3
None of these
8. If you don't tag your Email campaigns with campaign URL parameters, which default acquisition channel will this Email traffic go into? *  Mark only one oval.
(Other)
Direct
Email
None of these
9. How does Google Analytics identify a returning user? * Mark only one oval.
Cookies
Destination URL
Device
When they are logged in
10. How does a session differ from a pageview? *  Mark only one oval.
A pageview encapsulates all activity by a user on a site, whereas a session is calculated any time a page loads.
A session encapsulates all activity by a user on a site, whereas a pageview is calculated any time a page loads.
A session only occurs once per user, whereas a pageview occurs multiple times per user.
There can only be one pageview per session, but there can be many sessions per pageview.

11. When should you use unsampled reports? *  Mark only one oval.
When you experience a high cardinality dimension
When your data is sampled
When you need to segment your data
None of these
12. What happens if a user is browsing from 11:59 PM Monday until 12:05 AM Tuesday? * Mark only one oval.
The session is attributed to Monday
The session is attributed to Tuesday
A single session is attributed, but can be viewed in reporting for either Monday or Tuesday
Two sessions are attributed: one on Monday and one on Tuesday
13. Which is NOT an example of a default acquisition channel? * Mark only one oval.
Organic
Newsletter
Direct
Email
14. What are custom alerts used for? * Mark only one oval.
Defining segments
Notifying you when traffic reaches a defined threshold
Notifying you when traine reaches a defined threshold
Notifying you when a custom report data has changed
Notifying you when a custom report data has changed
Notifying you when a custom report data has changed  Notifying you an unsampled report is completed  15. What is the cardinality of the "device category" dimension? *
Notifying you when a custom report data has changed  Notifying you an unsampled report is completed  15. What is the cardinality of the "device category" dimension? *  Mark only one oval.
Notifying you when a custom report data has changed  Notifying you an unsampled report is completed  15. What is the cardinality of the "device category" dimension? *  Mark only one oval.
Notifying you when a custom report data has changed  Notifying you an unsampled report is completed  15. What is the cardinality of the "device category" dimension? *  Mark only one oval.  1 2
Notifying you when a custom report data has changed Notifying you an unsampled report is completed  15. What is the cardinality of the "device category" dimension? *  Mark only one oval.  1 2 3
Notifying you when a custom report data has changed Notifying you an unsampled report is completed  15. What is the cardinality of the "device category" dimension? * Mark only one oval.  1 2 3 4  16. If you experience a high cardinality dimension, what sometimes happens to your report? *
Notifying you when a custom report data has changed Notifying you an unsampled report is completed  15. What is the cardinality of the "device category" dimension? * Mark only one oval.  1 2 3 4  16. If you experience a high cardinality dimension, what sometimes happens to your report? * Mark only one oval.
Notifying you when a custom report data has changed Notifying you an unsampled report is completed  15. What is the cardinality of the "device category" dimension? * Mark only one oval.  1 2 3 4  16. If you experience a high cardinality dimension, what sometimes happens to your report? * Mark only one oval.  Nothing. High cardinality doesn't affect reports

mplementing the DAP <script> in your HTML, where is the recommended placement? * rk only one oval.</th></tr><tr><th>directly before the </head></th></tr><tr><th>directly after the <head></th></tr><tr><th>directly before the </body></th></tr></tbody></table></script>
--

### **Standard Reports**

directly after the <body>

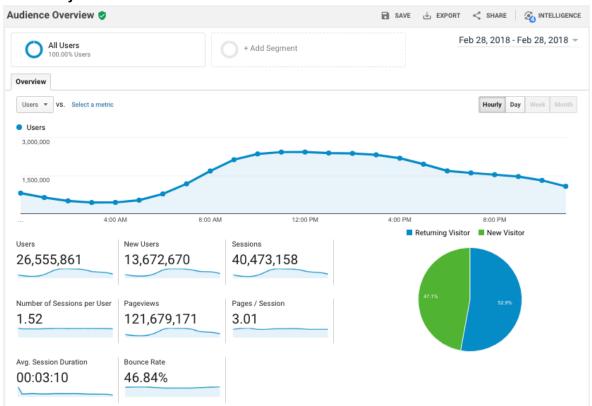

18. In the 5 rows of data in the Real Time report below, how many users got to the destination site via a referral? \*

Mark only one oval.

64,313
5,167
129,763
8,731

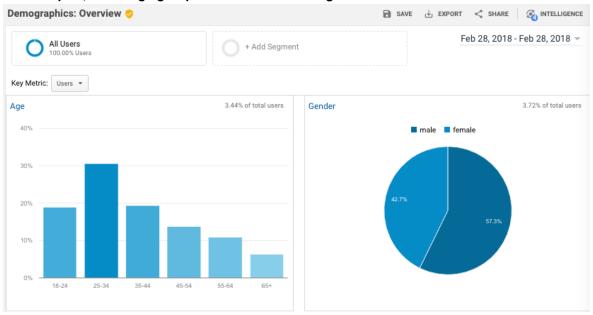

19. According to this Audience Overview report, how many sessions were there during the month of February? \*

Mark only one oval.

- 26,555,861
- 1,127,735,187
- 40,473,158
- Not enough information to determine

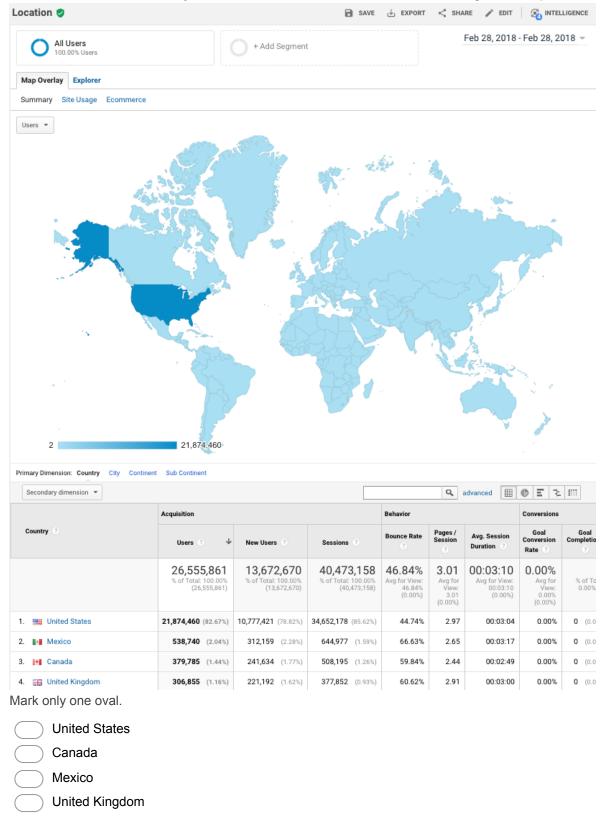

### 20. In this report, which age group accounted for the largest share of users? \*

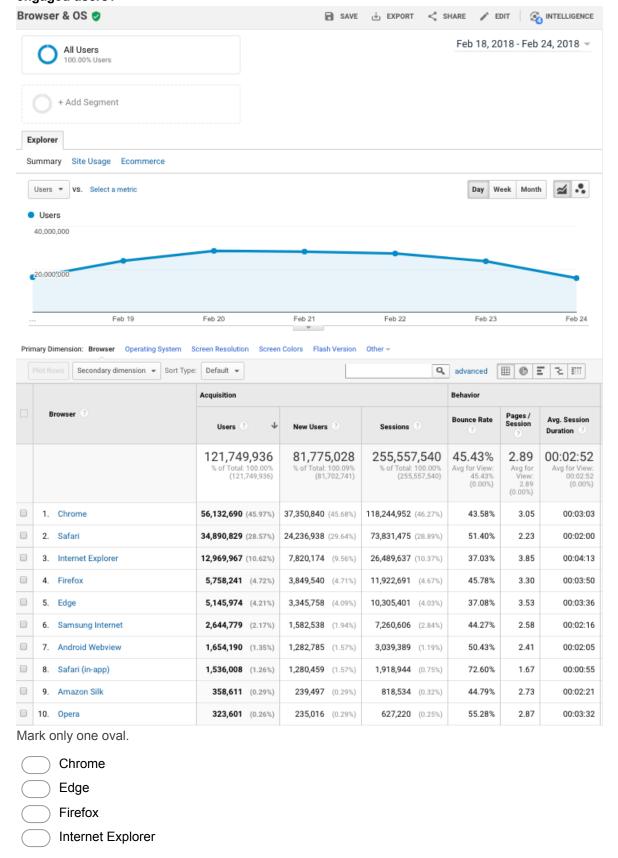

Mark only one oval.

- 45-54
- 55-64
- 25-34
- 18-24

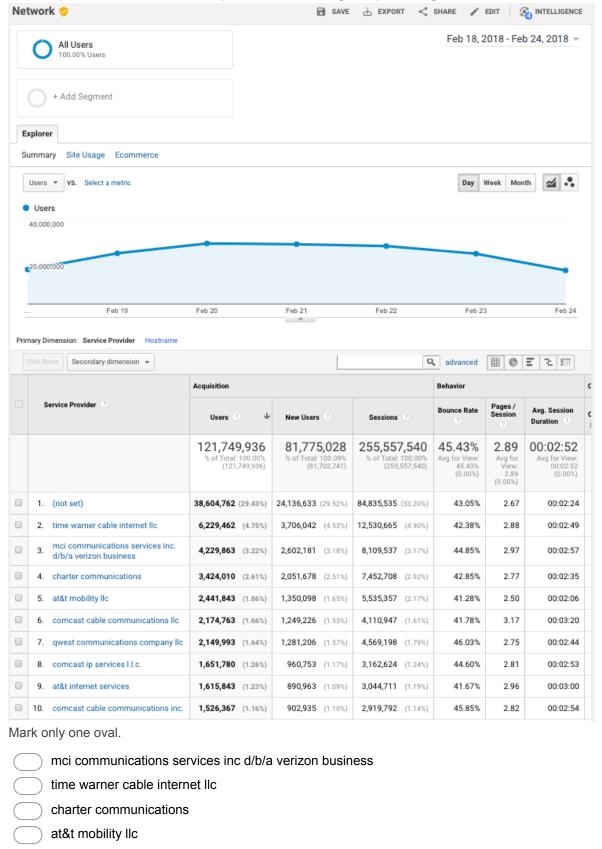

#### 21. Sessions from which country had the second-lowest bounce rate, according to this report? \*

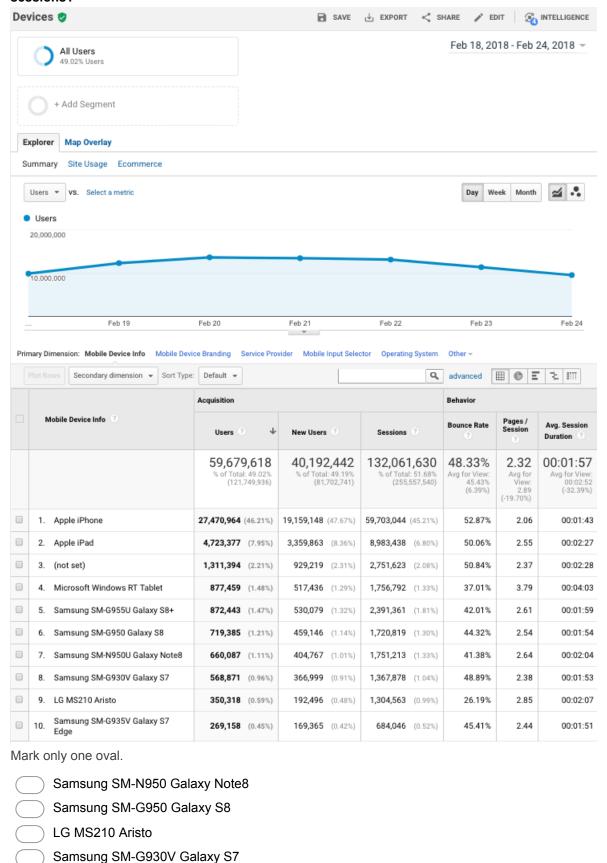

## 22. Based on the report below, which browser reflects metrics that would represent the most engaged users? \*

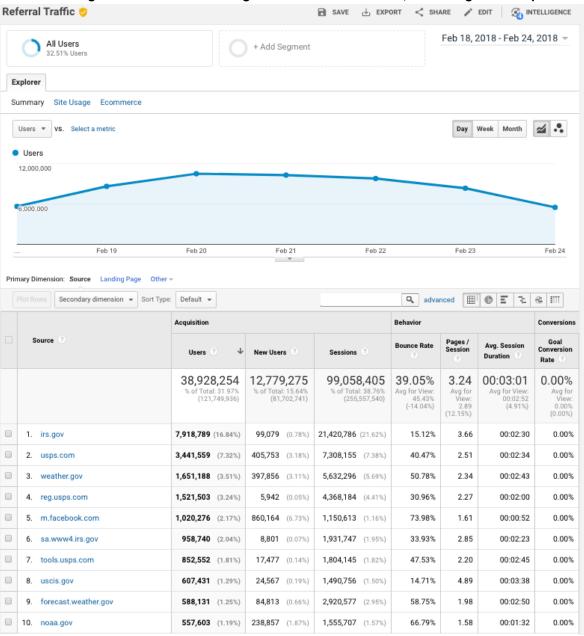

#### 23. In the report below, which service provider had the highest percentage of new users? \*

### 24. Based on the report below, of the choices given, which mobile device accounted for the most sessions? \*

#### 25. Which referring website referred the largest number of new users, according to this report? \*

Mark only one oval.

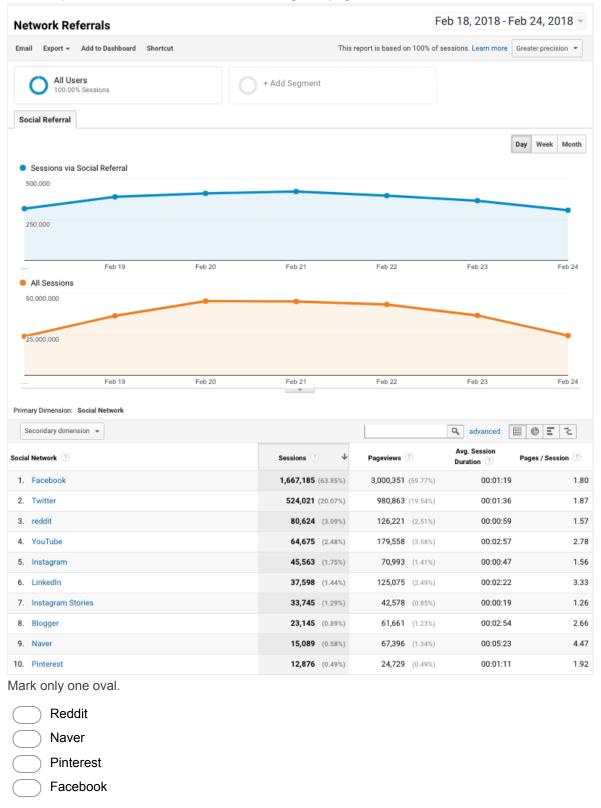

(	)	usns	com

( ) <u>irs.gov</u>

m.facebook.com

uscis.gov

#### 26. In this report, which social network had the highest pages/session metric? \*

	visualize following: sessions, source/medium, device type, bounce rate, avg. session uration, and browser? *
M	ark only one oval.
(	Explorer
(	Flat Table
(	Map Overlay
(	Funnel Report
	hich custom report option is only available in Analytics 360, and not in GA Free accounts? * ark only one oval.
(	Explorer Report
(	Flat Table Report
(	Map Overlay Report
(	Funnel Report

39. Which type of custom report would be the best to use if you wanted to export data into a table

41. How many rows of data can be exported at a time? \*

Mark only one oval.

1000
5000

20,000

50,000

42. Based on the Funnel Report below, which step transition has the lowest retention rate of visitors as they move through the funnel? \*

Mark only one oval.

From step 1 to step 2

From step 2 to step 3

From step 3 to step 4

From step 4 to step 5

43. When you see the following color shield next to the title of a report, what does it mean? \*

Mark only one oval.

The metrics and dimensions in the report are not compatible, resulting in a "flatline" report. You should adjust the metrics and dimensions of the report.

A segment is applied to the report. The yellow shield is there to let you know the report contains a segment.

The report may contain bot traffic. You should check to make sure the "exclude bots and spiders" option is turned on in the View settings.

The report may be sampled. You should hover to see the sampling rate and unsample the report if needed.

44. What is the main difference between the Explorer Report and the Flat Table Report? *  Mark only one oval.
The Flat Table Report allows more columns for metrics
The Explorer Report is designed for export, while the Flat Table report is better to view in the interface
The Flat Table Report allows for viewing more dimensions at a time
The Explorer Report is less susceptible to sampling
Regular Expressions /iew this video for help:
ttps://www.youtube.com/watch?v=-ObsVD2JY&index=10&list=PLd9b- GuOJ3nFwlyvLFUtmDpYFKezhot8P
45. The following filter is put in place in a custom report in the Gov-Wide Main Reporting Profile. Which hostnames would be included in the report? *
Include ▼ Hostname
+ add filter -
Mark only one oval.
fda.gov, faa.gov, fea.gov, cfda.gov, and ofda.gov
fda.gov, fea.gov, and faa.gov
fda.gov, blogs.fda.gov, accessibility.fda.gov, faa.gov, fea.gov, and more
fda.gov ONLY
46. What is the significance of the "\" (backslash) in regular expressions? *  Mark only one oval.
It has no significance; it isn't a regex special character
It signifies the start of a string matches the next character
It signifies that the preceding character happens zero or one time
It is the escape character, signifying the literal value of the next character

47. The filter shown below is put in place on a fictional GA account. Which of the choices best describes the pages that could appear in the report?  $^*$ 

Include 🔻	Page	<b>~</b>	Regex ▼	/banana	8
